

Benchmarking the Performance of Density Functional Approaches in Describing Interactions Between Cation-exchanged Zeolites and Pharmaceuticals and Personal Care Products (PPCPs)

Title: Benchmarking the Performance of Density Functional Approaches in Describing Interactions Between Cation-exchanged Zeolites and Pharmaceuticals and Personal Care Products (PPCPs) N.B.: See the attachment for the abstract.

Primary author(s) : MITRO, Sujon Kumar (Crystallography and Geomaterials Research, Faculty of Geosciences, University of Bremen, Klagenfurter Straße 2–4, 28359 Bremen, Germany)

Co-author(s) : Mr. BRAUER, Jakob (Crystallography and Geomaterials Research, Faculty of Geosciences, University of Bremen, Klagenfurter Straße 2–4, 28359 Bremen, Germany); Dr. FISCHER, Michael (Crystallography and Geomaterials Research, Faculty of Geosciences, University of Bremen, Klagenfurter Straße 2–4, 28359 Bremen, Germany)

Presenter(s) : MITRO, Sujon Kumar (Crystallography and Geomaterials Research, Faculty of Geosciences, University of Bremen, Klagenfurter Straße 2–4, 28359 Bremen, Germany)
