8th International Conference on Duckweed Research and Applications

Friday 02 October 2026

Poster session - Sala Monumentini (09:15-10:45)

[id]	title	presenter	board
[32]	Understanding Flowering in Lemna	Dr. LINCOLN, Anne	
[44]	Optimizing agitation rate and hydraulic retention for wastewater remediation by Lemna species and Azolla filiculoides	CHEN, Jingrou	
[8]	Bioremediation of African catfish (<i>Clarias gariepinus</i> (Burchell, 1822)) recirculating aquaculture system process water with duckweed <i>Lemna minor</i> L. (9440)	Mr. SONNENFELD, Alexej	
[9]	Vegetable Protein from Edible Aquatic Plants: Safe, Sustainable Production and Resilience Against Climate Change	Dr. CAROCHO, Marcio	
[36]	Insights into flowering induction and reproductive development in duckweeds	Dr. IANNELLI, MARIA ADELAIDE	
[67]	Cobalt-Driven Restructuring of the Duckweed Endophytic Microbiome Enhances Bioavailable Vitamin B	Ms. RISHMAWI, Dalia	
[59]	Investigating siRNA-mediated silencing in duckweeds, a potential model for translational repression in plants	Dr. DIEZMA-NAVAS, Laura	
[79]	Integrating Duckweed into a Chain Brine Users: Enhancing the value of Desalination Byproducts	Prof. ORON, Gideon	
[69]	Transcriptomic and morphological responses to salt stress in <i>Wolffia australiana</i>	HENRY, Caroline	
[19]	Physiological and Transcriptomic Responses of <i>Spirodela polyrhiza</i> to Distinct Colonization Strategies by Plant Growth-Promoting Bacteria	RUENPHAM, Karnjana	
[70]	Duckweed production at an IMTA system in Ireland	MARGOT, Clair	
[58]	Haplotype-resolved genome assembly and single-nucleus sequencing provide insights into the simplest flower development in <i>Wolffia microscopica</i>	CHAKRABORTY, Abhisek	
[46]	Dietary supplementation with <i>Lemna minor</i> mitigates the metabolic alterations induced by ingestion of PLA nanoplastic in a rat model	Dr. LOMBARDI, Martina Prof. VIGGIANO, Andrea	
[56]	Pollination and seed development in <i>Lemna aequinoctialis</i>	Ms. KOLEHMAINEN, Anna	
[65]	Direct and indirect effects of snail herbivory on <i>Spirodela polyrhiza</i> in a two-year outdoor experiment	SCHÄFER, Martin	
[21]	Modulation of silver nanoparticle phytotoxicity by surface coating and microplastic co-exposure in <i>Lemna minor</i>	Dr. VITKO, Sandra	
[14]	Intra-specific variation in growth and photosynthetic responses of duckweed <i>Lemna gibba</i> to manganese	Mr. ABEBAW, Amare Fassil	
[5]	Cellular-level visualization of salinity stress responses in <i>Wolffia australiana</i>	SUSSMAN, Hayley	
[68]	Small RNA biogenesis in Duckweeds	Mr. KRASNOVID, Filipp	

[80] Application of duckweed as an organic amendment for food production.	MANYENGA, Natasha	
[50] Towards a Zero-Waste Duckweed Biorefinery: Pulse Electric Field and High-Pressure Assisted Fractionation for Enhanced Recovery of Functional Ingredients	Mr. UJONG, Anim	
[63] A Trait Lost for Millions of Years: Investigating the Loss of Root Hairs in Duckweed	Ms. FAIRBURN, Rebecca	
[45] How Long Do Plants Remember? Transgenerational Stress Memory in a Duckweed-Aphid System	DINIZ RODRIGUES BATISTA, Enrico	
[61] Species-Specific Growth Inhibition by Extracellular Self-DNA in a Two-Species Duckweed Community and Its Association with Oxidative Stress	SANJAYA, Wilhelmus Terang Arga	
[29] Self-DNA Effects on Growth, Oxidative Stress, and Nutritional Quality of <i>Lemna perpusilla</i>: In Vitro	SILVANO, Jesis	
[55] Sustainable Commercialization of Duckweed Production in Malaysia	Dr. CHAN, Derek Juinn Chieh	
[74] Comparison of imaging methods for RGR determination and early stress detection in <i>Lemna minuta</i> grown on buffalo wastewater	Dr. GIULIANO, Alberto	
[26] Assessment of field-grown duckweed biomass by spectral indices	Ms. SZILÁGYI, Dóra Mr. OLÁH, Viktor	
[12] Clone-dependent germination and post-dormancy growth of ABA-induced turions in <i>Spirodela polyrhiza</i>	Ms. AMRI, Raja	
[83] Transgenic <i>Spirodela polyrhiza</i> and <i>Lemna minor</i> for Oral Delivery of Highly Glycosylated Human Interferon Alpha-2b	PROKHOROVA, Yelizaveta	
[48] Marked Inter- and Intraspecific Duckweed Diversity Enables Selection of More Suitable Genotypes for the Valorization of Raw Dairy-wastewater	Dr. PERNA, Cristian
