# Quantum Coherent Phenomena at Nanoscale

## Friday 21 June 2019

### session 7 (11:00-12:30)

time	[id] title	presenter
11:00	[6] In situ tailoring of single superconducting junctions and nano-SQUIDs via current-induced atom migration	SILHANEK, Alejandro
11:30	[35] Unconventional superconductivity induced in the surface states of 3D Topological insulators	LOMBARDI, Floriana
12:00	[18] Superconductivity, ferromagnetism and Rashba spin-orbit coupling in oxide 2DES	STORNAIUOLO, Daniela
