The restless nature of AGN: 10 years later

Tuesday 27 June 2023

Accretion and variability theory - Aula Magna (11:45-13:15)

-Conveners: Fabrizio Nicastro

time	[id] title	presenter
11:45	[57] Review: AGN accretion disk physics and variability	BLAES, Omer
12:15	[155] Hydrodynamical simulations of the variable accretion on to our closest SMBH	Prof. CUADRA, Jorge
12:30	[41] Simultaneous observations of radio and X-ray variability in radio-quiet Seyfert galaxies	CHEN, Sina
12:45	[19] Stellar graveyards in AGN disks - prospects for multi-messenger transients	BARTOS, Imre
13:00	[108] Modified models of radiation pressure instability as a potential cause of Changing-Look AGN phenomenon	SNIEGOWSKA, Marzena
