The restless nature of AGN: 10 years later

Wednesday 28 June 2023

Current and Future Surveys: part I - Aula Magna (09:30-11:15)

-Conveners: Guido Risaliti

time	[id] title	presenter
09:30	[11] Review: Restless AGNs in the Legacy Survey of Space and Time	Prof. BRANDT, William
10:00	[179] Review: Spectroscopic surveys for AGN time-domain science	Prof. LIRA, Paulina
10:30	[176] AGN Variability: A ZTF perspective	Dr. GRAHAM, Matthew
10:45	[65] The search for variable AGN with Gaia	CARNERERO MARTIN, Maria Isabel
11:00	[17] XMM-Newton Highlights of Black Hole Variability	Dr. NORBERT, Schartel

Current and Future Surveys: part II - Aula Magna (11:45-13:30)

-Conveners: Antonis Georgakakis

time	[id] title	presenter
11:45	[170] AGN in the La Silla QUEST Variability Survey	COPPI, Paolo
12:00	[141] Review: AGN variability with eROSITA	Dr. MERLONI, Andrea
12:30	[29] Extreme variability in galactic nuclei detected with eROSITA	Dr. HOMAN, David
12:45	[59] eROSITA Detection of Cloud Occultation Events in Seyfert AGN, and Contributions for Clumpy-Torus models	MARKOWITZ, Alex
13:00	[175] Continuous X-ray monitoring of the south ecliptic pole with eROSITA	Dr. LIU, Teng
13:15	[106] STAR-X: a next-generation X-ray and UV explorer to study the restless nature of AGN	Dr. GILLI, Roberto
